

**BUDYNEK PIECIOLATKOWY  
- MODUŁ "C"**

The drawing illustrates a sewerage system layout with three distinct sections of a main sewer line. Each section is defined by manholes and includes detailed annotations for pipe diameters, elevations, and specific features.

- Section 1 (Left):** Shows a main sewer line with manholes at elevations 0.00, 0.00, 0.00, and 0.00. It includes a 'przejście szczeżelne' (sewerage transition) and a 'studnia szelazalaka' (sewerage well) with a pump station (Pompa zatopiona P=300W U=230V).
- Section 2 (Middle):** Shows a main sewer line with manholes at elevations 0.00, 0.00, 0.00, and 0.00. It includes a 'przejście szczeżelne' and a 'studnia szelazalaka' with a pump station.
- Section 3 (Right):** Shows a main sewer line with manholes at elevations 0.00, 0.00, 0.00, and 0.00. It includes a 'przejście szczeżelne' and a 'studnia szelazalaka' with a pump station.

The drawing also includes a legend for the symbols used, such as 'przejście szczeżelne' (sewerage transition) and 'studnia szelazalaka' (sewerage well).
